EDUCATION

Dharmsinh Desai University   **Nadiad, Gujarat**
B.Tech in Information Technology (CPI: 8.68)   *2020 - 2024*

PROJECTS

HealthUtopia (HTML, CSS, JS, jQuery, NodeJS, MySQL)
- A team project with which we participated in a **National level Hackathon HackCBS 2.0**
- A healthcare website designed to help people maintain their fitness using its special personalized features.
- Any patient can use this website for their **disease diagnosis on a basic level based on the symptoms** which further can also help in maintaining necessary lifestyle.
- We hosted the **project live on the Heroku platform.**

UniCan (PostgreSQL)
- A **console based application** for organizing and managing the database of the university providing an efficient way of storing and retrieving data of the university.
- It is **purely a database related project** which takes care of every possible transaction needed for any university data access.

Curriculum Management System (ReactJS, SpringBoot, MySQL,JWT,Apache Kafka) (Ongoing)
- A full-stack web application created to **ease the curriculum design and management procedure** for the universities.
- It provides **isolation to inter-departmental data** and also helps in managing the faculty details and electing curriculum design head keeping in mind the **security of the credentials and crucial data.**
- Any user can **download the details of the course/department in a PDF format** provided by the university along with the updates in the course pattern.
- Currently, we are **in the process of deploying the project live.**

Personal PortFolio (HTML,CSS,JavaScript)
- A **portfolio website** which I personally use to showcase my work and let people know about my skills and hobbies.
- It is currently **deployed on Github Pages**.
- It is visioned to include a personal blog site section.

LEADERSHIP EXPERIENCE

Event Lead at CodeChef Chapter of Dharmsinh Desai University   *July 2022 – Present*
- Organized **competitive programming related events** in collaboration with the CodeChef Platform.
- **Conducted Data Structures(DSA) bootcamp** helpful for students in order to get an overview of importance and usefulness of the same.
